SUMMARY

As a passionate Full Stack Developer with a BCA background, I specialize in building responsive and dynamic web applications using both frontend and backend technologies. With hands-on experience in HTML, CSS, JavaScript, PHP, MySQL, and C#, I enjoy crafting user-friendly interfaces while ensuring solid backend functionality. Currently enhancing my skills in modern frameworks and database systems, I'm driven to create scalable, real-world solutions that deliver real impact.

TECHNICAL SKILLS

Languages and Technologies: SQL, Java, C++, HTML, CSS, IntelliJ IDEA, Android Studio, VS Code, GitHub, SaaS & Microservices Architecture, Cloud Platforms: AWS, Azure

EDUCATION

Bachelor In Business Administration (Computer Application) | July 2022 – Mar 2025
Modern College Of Business Administration, Pune, India

- Completed a 3-year Computer Applications degree with hands-on project development and a strong focus on web technologies and programming fundamentals.

Higher Secondary Certificate (HSC) | Aug 2020 – Mar 2022
Guru Nanak Public School & Junior College, Pune, India

- Developed a solid foundation in Business Studies, Accountancy, and Economics, enhancing real-world systems understanding and data-driven thinking.

Secondary School Certificate (SSC) | June 2019 – May 2020
Hill Green High School & Junior College, Pune, India

- Scored well academically with consistent performance, laying the groundwork for analytical thinking and discipline.

PROJECTS

1. Dental Clinic Management System | HTML, CSS, JavaScript, PHP, SQL

- Developed a responsive web-based platform for dental clinic management. The system allows patients to schedule appointments and includes an admin panel to manage patient records, view upcoming appointments, and generate billing reports.

2. Eye Clinic Management System | C#, SQL

- Built a Windows-based application to streamline patient management in eye clinics, including record-keeping, visit history, and doctor-patient interaction tracking.

PROGRAMMING ACHIEVEMENTS

• Completed Infosys Springboard Certification in Software Engineering.
Gained **understanding of the Software Development Lifecycle (SDLC), core programming concepts, and hands-on project workflows using industry-standard tools.**

- Completed certifications in Java, SQL, and Web Development.

- Solved 100+ coding problems on LeetCode.

- Earned LeetCode Problem Solving Badges.

EXTRACURRICULAR & SPORTS ACHIEVEMENTS

- Played District Level Football.

- Represented school in Reliance Foundation Football Tournament for 4 consecutive years.

- Played Zilla Parishad (ZP) Level Football Match.

- Earned 30+ certificates in football and tournaments.

SOFT SKILLS

Communication, Problem Solving & Strategic Thinking, Adaptability, Team Collaboration, Time Management Languages – English, Hindi, Marathi

HOBBY

Football – Passionate about team sports, strategy, and physical fitness.
